

Revision Thu:

1. **"The Dotted Hollow Hourglass"**: Modify your Hourglass program to print a shape where the borders are made of stars (*), but the inside is filled with dots (.).

- The **top** and **bottom** rows must be completely filled with stars.
- For all other rows, print a star only at the **beginning** and the **end** of the row. Print **dots** in between.

Sample run

```
Enter an odd number for the hourglass pattern: 11
*****
* ..... *
* ..... *
* ..... *
* ..... *
* ..... *
* ..... *
* ..... *
* ..... *
* ..... *
* ..... *
*****
```

3. **"Compound Interest"**: Modify the Savings Race to include a bank interest rate.

- The bank gives **1% interest** per month on the *current* balance **before** the new monthly saving is added.
- *Formula*: $\text{balance} = \text{balance} + \text{balance} * 0.01 + \text{monthlySaving}$
- However, the interest only applies if the student has at least **\$500** in their account. If they have less than \$500, they get 0% interest that month.
- Display the "Interest Earned" for each student in the final summary.

Sample run

Welcome to the Savings Race (Compound Interest Edition)!
Target: \$1000.0

Month	Student A	Student B	Student C
Month 1:	150.0	330.0	75.0
Month 2:	200.0	360.0	150.0
Month 3:	250.0	390.0	225.0
Month 4:	300.0	420.0	300.0
Month 5:	350.0	450.0	375.0
Month 6:	400.0	480.0	450.0
Month 7:	450.0	510.0	525.0
Month 8:	500.0	545.1	605.25
Month 9:	555.0	580.55	686.3
Month 10:	610.55	616.36	768.16
Month 11:	666.66	652.52	850.84
Month 12:	723.33	689.05	934.35
Month 13:	780.56	725.94	1018.69

Race finished!
Total months: 13
Final Balances:
Student A: \$780.56
Student B: \$725.94
Student C: \$1018.69

Winner(s):
Student C
